

Sample Question Bank MCQ for MCA

Subject Name: Digital Forensic

Semester: IV Sem

Sr. No.	Question	Module No.	Option a	Option b	Option c	Option d
1	Cybercrime is	1	a) Denial of service attack	b) Hacking	c) Stalking	d) All of the above
2	A computer Virus is	1	a) A virus that affects the health of a human being	b) A computer program that replicates itself	c) Both	d) None of the above
3	RMDFRWS framework is proposed by	1	a) G. Palmar	b) P. Stephenson	c) E. Casey	d) F. Cohen
4	How many ways are there to keep track of browsing history?	2	a) 3	b) 5	c) 7	d) 6
5	In the asymmetric-key encryption technique, the number of keys used in the encryption and decryption process are	2	a) 2	b) 3	c) 4	d) 5
6	To identify relevant files and fragments of relevant files is used	2	a) Relevant data	b) Undeleted files	c) String searching	d) Cryptographic files
7	In forensic duplication, the _____ of every file should be compared with a known set of hashes and ignore any matches	3	a) Forensic hashes	b) Cryptography	c) MD5 hashes	d) Active hashes
8	A firewall is installed at the point where the secure internal network and untrusted external network meet, which is also known as	3	a) Firewall point	b) Check point	c) Meeting point	d) Secure point
9	The file that stores every bit of information from source is referred	3	a) Qualified forensic duplicates	b) Restored image	c) Mirror image	d) Forensic Evidence
10	Most powerful tool for live response toolkit in UNIX system is	4	a) Lsof	b) Lsmod	c) Netstat	d) Nc
11	WPA2 provides security in	4	a) Wi-fi	b) Ethernet	c) Bluetooth	d) None of the above
12	What sorts all files by the time the inode was last changed?	4	a) Time	b) Netcat	c) Ctime	d) Uname

13	IMSI stands for	5	a) International Mobile System Identity	b) International Mobile Subscriber Identifier	c) International Mobile Subscriber Identity	d) International Mobile Subscriber Identity
14	Used to unblock your SIM card when you entered 3 times a wrong PIN	5	a) SUK	b) PUK	c) PNk	d) SNK
15	Linux Kernel is the lowest layer of Android architecture. The next layer in the architecture is	5	a) Applications	b) Libraries	c) Application Framework	d) Libraries Framework
16	Dimensions of Cloud Forensics	6	a) 6	b) 5	c) 4	d) 3
17	Cloud forensics involves the reverse process of	6	a) Evidence Segregation	b) Forensic data collection	c) Proactive preparations	d) Forensic investigation
18	The technology in which surgeons can perform delicate operations by manipulating devices through computers instead of manually is known as	6	a) Robotics	b) Simulation	c) Computer Forensic	d) Animation
19	Which type of Application is Encase?	7	a) Commercial application	b) Freeware application	c) None of the above	d) All of the above
20	Hashing is the sub function of	7	a) Extraction	b) Acquisition	c) Validation and discrimination	d) Reporting
21	Report is also having same weightage as an investigation process has	7	a) True	b) False		
22	Which is the most common storage device for the personal computer?	1	a) Zip disk	b) Floppy disk	c) USB thimb drive	d) Hard disk drive
23	Which of the following is /are the types of firewall?	4	a) Packet filtering firewall	b) Dual homed gateway firewall	c) Screen host firewall	d) All of the above
24	What type of password attack would be most successful against the password T63k#s23A?	3	a) Password guessing	b) Brute force	c) Hybrid	d) Dictionary
25	Which is NOT a tool or method for logical data extraction	5	a) File system	b) Android backups	c) Advanced Logical	d) Chip-off method
